

Product details

Detail	Description
Product name	FireWare Solid Fire Extinguisher Trainer
Product category	Fire extinguisher trainer
Manufacturer	FireWare bv
Article number	049-092-012

Product description

Extinguishing trainer for fires with solid material. The Solid is a fully stand-alone extinguisher trainer, good quality for a small budget. The Solid allows you to simulate a solid material fire in less than no time. With only 1 bar gas pressure you will already have a nice fire. Complete the staging by throwing some real logs or fake logs on the fire.

The Solid is easy to use. You connect the gas hose, press the handle and ignite the extinguisher trainer with a special burner (excluded). The flames stop when the instructor terminates the gas supply with the handle on the gas hose. Comes with a useful plastic storage / transport box of 60 x 40 x 32,5 cm.

Certifications

EU guidelines: 97/23/EG and 90/396/EEG

Aftercare

You can clean the *BF Solid* with (warm) water and household cleaning products, but do not use chlorine. Using abrasive cleaners, scouring pads, steel wool and similar products can damage your practice extinguisher.

Waste disposal

Electric appliances, accessories, and packaging need to be collected and recycled separately or disposed off in an environmentally responsible manner.

Warranty

The *BF Solid* has a two-year warranty against product and manufacturing faults. Damage as a result of careless acting is not refunded. Repairs require expertise. It is therefore highly recommended to return the appliance to us in the event of a defect. The warranty is cancelled if it becomes apparent that you or a third party opened the appliance or if you or a third party have applied modifications or adjustments of any kind without the explicit permission from the supplier.
